mnemonic

So Long, and Thanks for All the Phish

The rise and fall of Darcula

Erlend Leiknes
Harrison Sand

Who are we?

Harrison & Erlend

Offensive security consultants

Work at mnemonic, a Norwegian cybersecurity company

Where it started

- Erlend received an iMessage in December 2023
- The message was impersonating Posten, the Norwegian postal service
- We got curious…

Inspector Notes

Event log (6) All issues Memory: 232.5MB

What exactly is going on here?

- Developer is trying to obfuscate things
  - Challenge accepted!
- “type” and “room” are 16-bytes of hex
  - MD5?
- “data” is something that’s been Base64 encoded
  - Decoding returned mostly garbage
  - Contained the string “Salted”
  - Probably encrypted

Telegram Founder Charged With Wide Range of Crimes in France

Pavel Durov, who was arrested near Paris over the weekend as part of a broad investigation into criminal activity on the platform, was also barred from leaving the country.

The founder of Telegram, Pavel Durov, shown in 2014, was released in Paris on bail of about $5.5 million. Jim Wilson/The New York Times

By Aurelien Breeden and Adam Satariano
Aurelien Breeden reported from Paris, and Adam Satariano from London.

Aug. 28, 2024

Leer en español

Pavel Durov, the Russian-born entrepreneur who founded the online communications tool Telegram, was charged on Wednesday in France with a wide range of crimes for failing to prevent illicit activity on the app, and barred from leaving the country.

His indictment was a rare move by legal authorities to hold a top technology executive personally liable for the behavior of users on a major messaging platform, escalating the debate over the role of tech companies in online speech, privacy and security and the limits of their responsibility.

Mr. Durov, 39, was detained by the French authorities on Saturday after a flight from Azerbaijan. He was charged on Wednesday with complicity in managing an online platform to enable illegal transactions by an organized group, which could lead to a sentence of up to 10 years in prison.

He was also charged with complicity in crimes such as enabling the distribution of child sexual abuse material, drug trafficking and

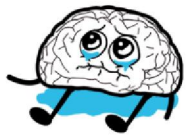
JavaScript Obfuscator Tool

Star Watch Sponsor

A free and efficient obfuscator for JavaScript (including support of ES2022). Make your code harder to copy and prevent people from stealing your work. This tool is a Web UI to the excellent (and open source) `javascript-obfuscator@4.0.0` created by Timofey Kachalov.



Copy & Paste JavaScript Code | Upload JavaScript File | Output

```
// Paste your JavaScript code here
function hi() {
  console.log("Hello World!");
}
hi();
```

Obfuscate

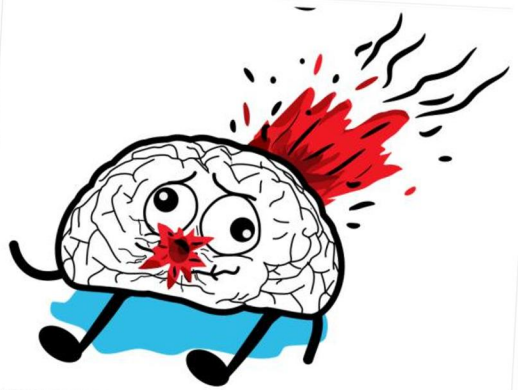
typedoc.json	feat: docs	2 years ago

README GPL-3.0 license

synchrony



javascript cleaner & deobfuscator (primarily javascript-obfuscator/obfuscator.io)

API reference is available at https://relative.github.io/synchrony

Usage note

Artifacts produced by old versions of javascript-obfuscator will likely not deobfuscate correctly, please **DO NOT** open an issue. Try previous versions of synchrony or another deobfuscator.

There is no user configuration as of yet, the string decoder works automatically

Usage

Use the latest version at https://deobfuscate.relative.im or install from NPM

```
# 1. Install deobfuscator globally using yarn/npm
npm install --global deobfuscator # alternatively, yarn global add deobfuscator, pnpm install

# 1.1. Or Install from Git
# npm install --global relative/synchrony#master # alternatively, yarn global add relative/sync

# 2. Get an obfuscated file
```

Darcula's infrastructure

- All centralized infrastructure is behind Cloudflare
  - Backdoor won't work
- We know the license server is a gold mine
  - Database of all activations
  - Includes IPs
  - Maybe more?
- Netcraft blogged about Darcula in March 2024
  - Simultaneous takedown of Darcula's magic-cat.net domain
  - Back up and running within hours

```
# License server
auth.magic-cat.world

# Installation files
deploy.magic-cat.world

# Docker registry (Harbor)
registry.magic-cat.world

# Phishing kit server
pages.magic-cat.world
```

Good time to inform the police

- Compiled a 24-page report and shared with
  - Norwegian National Cybercrime Centre (NC3)
  - The National Authority for Investigation and Prosecution of Economic and Environmental Crime (Økokrim)
  - Europol
  - FBI
- Held meetings with Europol in The Hague, twice

Gotcha!

mnemonic

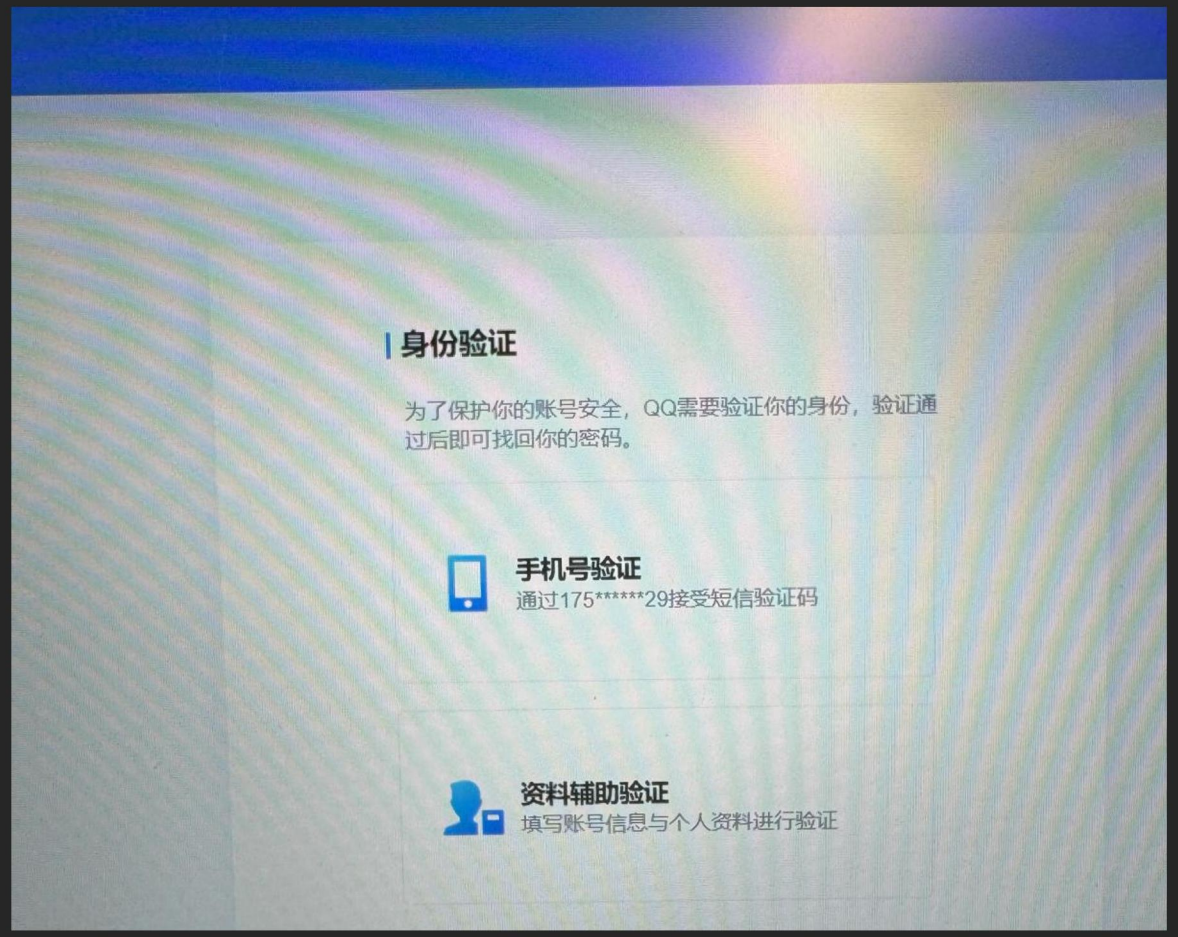
What we know so far

- +1 (727) 755-6989
  - US phone number, probably Google Voice
  - Darcula's Telegram profile
- 47.242.121.133
  - Used by administrator to access the license server
  - Registered to hk.if-she.com in 2022
  - Actively used by my4cheng@gmail.com
  - Likely a VM in Alibaba Cloud
- my4cheng@gmail.com
  - Was associated with if-she.com via GitHub
  - Apple +1 *** *** **89
  - Samsung +1 72* *55 **89
  - PayPal +86 1** ***3 8529
- 1434389213@qq.com
  - "Contact me" button on if-she.com
  - +86 175 **** **29



Narrowing in on the Chinese phone number

- Phone numbers in China are strongly linked to real identities
  - Required to identify yourself
  - Hard to get a burner
- Further OSINT on a Chinese number could provide a strong link to a real person

```
+86 1** ***3 8529 from PayPal
+86 175 **** **29 from QQ

+86 175 ***3 8529 # 1,000 possibilities
```

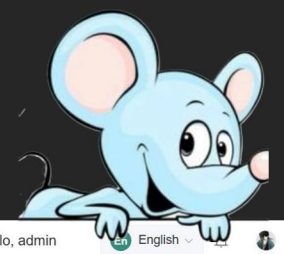
Get phished

Remember this card number:

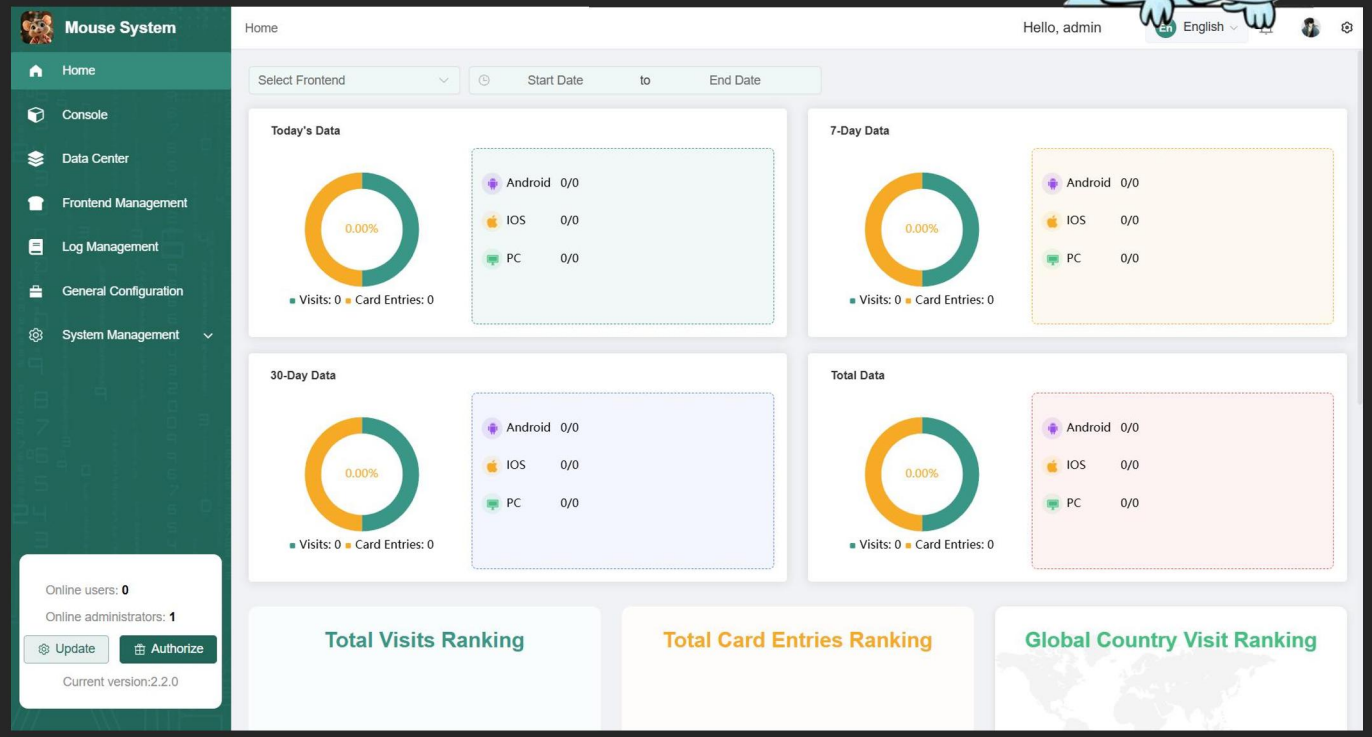
4242 4242 4242 4242

https://mem0.xyz/1337/

“The mouse killed the cat”



- Magic Cat has had no recent updates, though some of the frontend code was stolen and is in use by other groups
  - Has led to some false attribution
- Magic Mouse has surged in use after Magic Cat went offline
- 1300+ servers in a one-month timespan
  - Several phishing domains per server
- Responsible for 650,000 stolen cards per month



mnemonic

Thank you!

Harrison Sand
