О проекте
Ищите ЛЕГКИЙ и БЫСТРЫЙ способ заработать в интернете? Начните зарабатывать с нами прямо сейчас!!! Всего лишь две минуты вашего времени, и вы превратите ваш трафик в реальные деньги! Зачем тратить силы на бесконечные партнерские программы? Присоединяйтесь к нам, и Вы будете иметь стабильный доход каждый день, не потеряв при этом посетителей! Мы не будем обещать золотые горы. Наша работа - помогать вам использовать возможности вашего трафика самым выгодным образом. Еще больше денег при тех же объемах трафика - это реально. Попробуйте, и вы останетесь с нами!
Начнем зарабатывать серьезные деньги вместе!
Любой желающий может присоединится к нам! Для этого

ФАЙЛОВЫЙ АРХИВ
Здесь Вы сможете скачать самые полезные программы и утилиты, которые пригодятся не только профессионалам, но и новичкам. Подробнее об использовании каждой программы можно узнать на нашем форуме.
ЗДРАВСТВУЙТЕ. ВЫ ЗАШЛИ НА САЙТ WWW.CARDERPLANET.COM
На нашем сайте обсуждаются уязвимости как онлайновых, так и оффлайновых банковских продуктов, что, несомненно, будет полезно банковским специалистов для "залатывания" обсуждаемых "дыр". Наш сайт был открыт 31 мая 2001 года и за короткое время занял достойное место в группе сайтов посвященных вопросам электронной комерции и банковской деятельности. Сайт CarderPlanet имеет своих мемберов, которые делятся по группам согласно их авторитету в той области области, на которой они специализируются. Мы рекомендуем Вам посетить наш форум и узнать много полезного. Все коммерческие объявления на сайте и на форуме платные. Если Вы разместите своё рекламное объявление коммерческого характера, предварительно не оплатив их, Ваше объявление будет удалено, а сами Вы будете забанены на нашем сайте. Мы рекомендуем Вам работать только с проверенными мемберами нашего сайта - в этом случае Вас не постигнет разочарование.

Penetration Testing

Our penetration testers are some of the most revered in the industry and are at the forefront of new testing techniques.

Book an appointment

Home › Penetration Testing

Penetration testing is a safe imitation of a hacker attack to prevent them in the future. The test has lots of variations. But the main criterion is that the hacker is aware of the attacked object.

Depending on the degree of his awareness, there may be one of the following techniques:

This whitepaper provides an overview of **CozyDuke**, a set of tools used by one or more malicious actors for performing targeted attacks against high profile organizations, such as governmental organizations and other entities that work closely with these institutions.

The CozyDuke toolset, which we believe has been under active development since at least 2011, consists of tools for infecting targeted hosts, establishing and maintaining backdoor access to the hosts, gathering information from them and gaining further access to other hosts inside the victim organization.

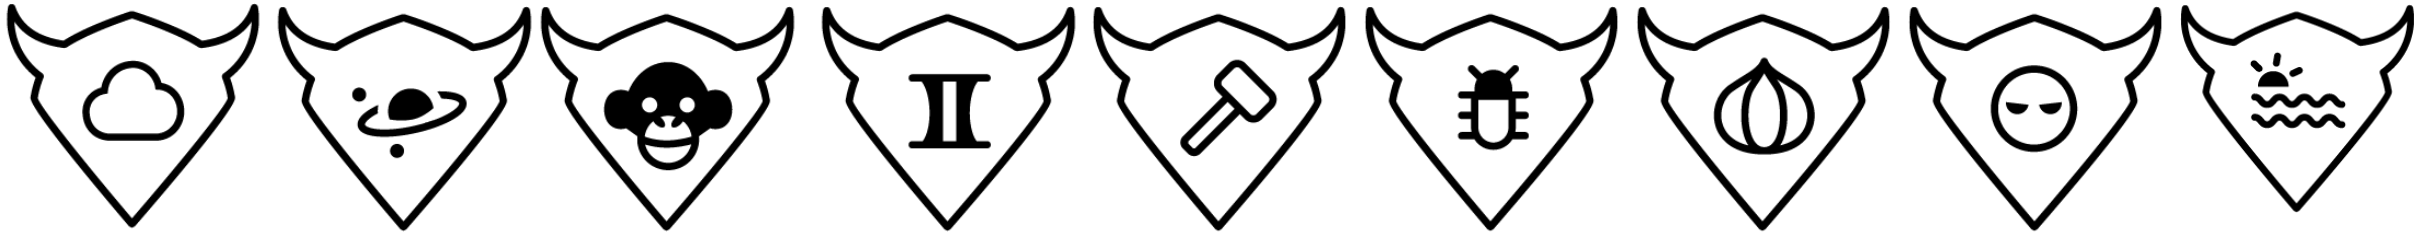

Based on command and control (C&C) server information found being used by CozyDuke tools, we believe the CozyDuke toolset is used by at least one malicious actor who also uses, or at the least shares, infrastructure with actors using the known threats, **MiniDuke** and **OnionDuke**.

Military Computer Attack Confirmed

By BRIAN KNOWLTON
Published: August 25, 2010

WASHINGTON — A top Pentagon official has confirmed a previously classified incident that he describes as "the most significant breach of U.S. military computers ever," a 2008 episode in which a foreign intelligence agent used a flash drive to infect computers, including those used by the Central Command in overseeing combat zones in Iraq and Afghanistan.

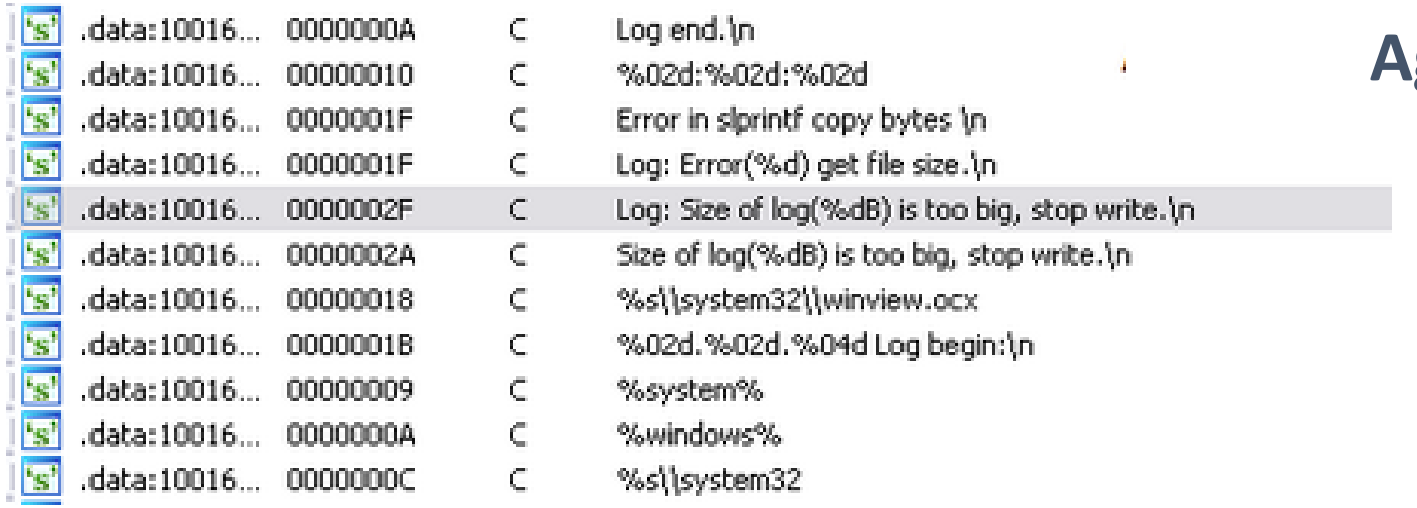

Plugging the cigarette-lighter-sized flash drive into an American military laptop at a base in the Middle East amounted to "a digital beachhead, from which data could be transferred to servers under foreign control," according to William J. Lynn 3d, deputy secretary of defense, writing in the latest issue of the journal Foreign Affairs.

"It was a network administrator's worst fear: a rogue program operating silently, poised to deliver operational plans into the hands of an unknown adversary," Mr. Lynn wrote.
